Attention Village of Farwell Residents

The Village of Farwell DPW will begin the routine flushing of fire hydrants and valve turning.

This process will start Monday, April 5th, 2021 and will continue through Friday, April 9th, 2021.

Please remember that flushing hydrants may cause water to temporarily become yellow or dirty looking.

Additionally, low water flow/pressure might occur.

This process is a very important system maintenance procedure that allows pipes to be purged and to check that hydrants are properly working.

Thank you for your cooperation and we apologize for any inconvenience this may cause.

If you have any questions or concerns, please call our office at 989-588-9926.

2021 Water Rates
